PROJECT PLANNING PHASE

Milestone and Activity list

Date	07 november 2022
Team ID	PNT2022TMID45520
Project Name	Project – Al Powered Food Demand Forecasting
Maximum Marks	8

DemandEst - Al powered Food Demand Forecaster

Completed Tasks:

MILESTONES	ACTIVITY	DESCRIPTION	DATE
		Literature survey on	
Ideation phase	Literature survey	selected project and	29 september 2022
		gathering	
		information.	
		Prepare empathy	
	Empathy map	map to capture the	05 october 2022
		user pains and gains,	
		prepare a list of	
		problem statement.	
		Organising the	
		brainstorming	
	Ideation	session and prioritise	16 october 2022
		the top three ideas	
		based on feasibility	
		hand importance.	
		Prepare proposed	
		solution document	
Project design phase	Proposed solution	which includes	02 november 20022
1		novelty, feasibility of	
		ideas, business	
		model, social impact,	

		scalability of solution.	
	Problem solution fit	Prepare problem	
		solution fit	02 november 2022
		Documents.	
		Prepare customer	
		journey map to	
Project design phase	Customer journey	understand the user	03 november 2022
2	map	interactions and	
		experience with the	
		application.	
	Functional	Prepare functional	
	requirements	and nonfunctional	03 november 2022
		necessity document.	
		Prepare data flow	
	Data flow diagram	diagram and user	03 november 2022
		stories	
	Technology	Draw technology	03 november 2022
	architecture	architecture diagram	
Project planning	Milestones and	Prepare milestones	
phase	activity list	and activity list of the	07 november 2022
		project.	
	Sprint delivery plan	Sprint delivery plan	

Remaining Tasks:

MILESTONES	ACTIVITY	DESCRIPTION
Pre-Requisites	In Order To Develop	Anaconda Navigator
	This Project,We Need	
	To Install Following	
	Software's/Package	
	To Build Machine	Numpy Pandas
	Learning Models You	Sicikit-learn
	Must Require The	Matplotlib and
	Following Packages	Seaborn Flask
Dataset Collection	Collect The Dataset	train.csv test.csv
	or Create The Flask	fulfilment_center_info
		.csv meal_info.csv
Data Pre-Procesing	Importing The	Pandas

	Libraries	
		NumPy
	Reading The Dataset	Read_csv()
	Exploratory Data	train.head()
	Analysis	test.head()
	Reading And	meal_id center_id
	Merging.csv Files	
	Droping Columns	center_id meal_id
		trainfinal
	Data Visualization	Data visualization is
		where a given data
		set is presented in a
		graphical format
	Splitting The Dataset	homepage_featured
	into Dependent And	emailer_for_promoti
	Independent Variable	on op_area cuisine
		city_code
		region_code
	Split The Dataset Into	train_test_split Train
	Train Set And Test	Dataset Test Dataset
	Set	test_size train_size
		train_test_split
Model Building	Train And Test Model	There are several
	Application	Machine learning
		algorithm to be used
		depending on the
		data you are going to
		process such as
		images,sound,text
		and numerical values.
	Model Evaluation	We're going to use
		x_train and y_train
		obtained above in
		train_test_split
		section to train our
		regression model.
	Save The Model	After building the
		model we have to
		save the model.
	Predicting The Output	Here,we are creating

	Using The Model	X_test which are
	Coming The Wieder	using to test the
		model to predict the
		number of orders by
		giving input to the
		model build.
Application Building	Create An HTML File	We use HTML to
Application building	Create All Hilling File	create the font-end
	Duild Duthon Codo	part of the web page.
	Build Python Code	Let us build flask file
		'apply.py' which is a
		web framework
		written in python for
		server - side scripting.
	Run The App	Run the application
		from anaconda
		prompt.
Train The Model On	Register For IBM	Create IBM Account
IBM	Cloud	
	Train The ML Model	Train The ML Model
	On IBM	On IBM
	Integrate Flask With	Watch The Video To
	Scoring End Point	Integrate The
		Scooring Endpoint To
		The Flask
Project Development	Project Development	In this activity are
Phase	Delivery Of Sprint-1	expected to develop
		& submit the
		developed code by
		testing it.
	Project Development	In this activity are
	Delivery Of Sprint-2	expected to develop
		& submit the
		developed code by
		testing it.
	Project Development	n this activity are
	Delivery Of Sprint-3	expected to develop
		& submit the

	testing it.
Project Development	In this activity are
Delivery Of Sprint-4	expected to develop
	& submit the
	developed code by
	testing it
